Siemens presents its innovative solutions at the Airport Show in Dubai

Siemens Logistics and Airport Solutions presents its complete portfolio for baggage, cargo, airport IT and related services at this year's Airport Show in Dubai. From May 10 to 12, 2015, visitors can find Siemens at the Dubai International Convention and Exhibition Center in Hall 7, Booth No. 7210.

In particular, the company introduces the following innovative solutions:

- The new tilt-tray sorter VarioSort TTS 1100 which quickly and efficiently deals with large amounts of baggage at airports
- The new Baggage Vision System which solves the challenge of non-readable bag tags applying highly reliable optical character recognition (OCR) software
- The Siemens Airport Management Operations Suite (Siamos) with its embedded Airport Operational Dashboards (AOD) helps airports transform data into decisions by means of situational awareness.

In the United Arab Emirates (UAE), Siemens Logistics and Airport Solutions has been cooperating with Al Moosa Group Investment LLC for many years in the successful joint venture SD (Middle East) LLC. "We very much appreciate the close and trustful partnership with Al Moosa Group Investment LLC. It is an important basis for our long-term success in the UAE", said Michael Reichle, CEO of Siemens Logistics and Airport Solutions. SD (Middle East) LLC offers a combination of sales, marketing and technical expertise as well as operation and maintenance services.
